Citizen Survey for Andes and Bovina Shared Services Study

The Center for Local Government (CLG) at Binghamton University is conducting an assessment of shared services opportunities for the Towns of Andes and Bovina. The purpose of the study is to look for ways to improve public services and reduce costs. An important part of the project is a telephone survey to find out the opinion of Andes and Bovina residents. Please respond when you get a phone call in late July from the Siena Survey Research team to participate in the survey. Your participation will help local officials know what you think about current services and ideas about changing the public services are provided in the town.

Contact Information. IF you have questions, please call the town hall or Michael Hattery, Director of the Center for Local Government at Binghamton University. You can contact Dr. Hattery by phone (607-844-4361) or email (mhattery@binghamton.edu). Comments and questions about the project are welcome.
